

The sheet for keeping the freshness of ingredients such as fish and meat

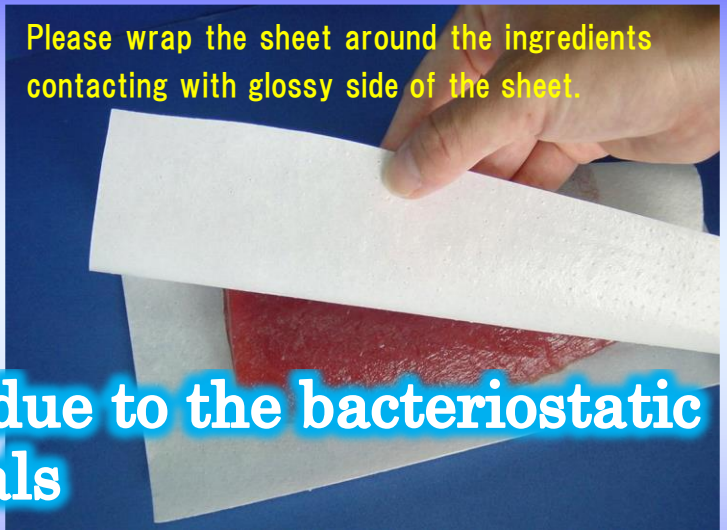

Barrier Wrap Sheet

Maintaining good shine, good gloss and long color retention of ingredients

Please use it !

Please wrap the sheet around the ingredients contacting with glossy side of the sheet.

Maintaining freshness due to the bacteriostatic action of marine minerals

By the bacteriostatic action and drip absorption, the deterioration of ingredients is suppressed, the freshness lasts for a long time, and the waste loss is reduced.

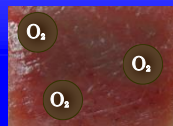

Effects of Barrier Wrap Sheet

Good reputation for use on tuna

Before use

At the start of use

Oxidation Progress

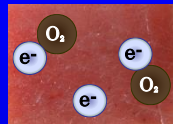

Discoloration of the entire surface

After use

At the start of use

Suppression of oxidation progress by reducing negative ions

Suppression of discoloration

Example of use at a wholesaler

Composition of Barrier Wrap Sheet: Polyethylene film with bacteriostatic agent containing essential mineral zinc as the main component, and natural pulp non-woven fabric.

[B] NJ-36301

Safety findings: Conformity to Japan's Ministry of Health and Welfare Notification No. 370 test.

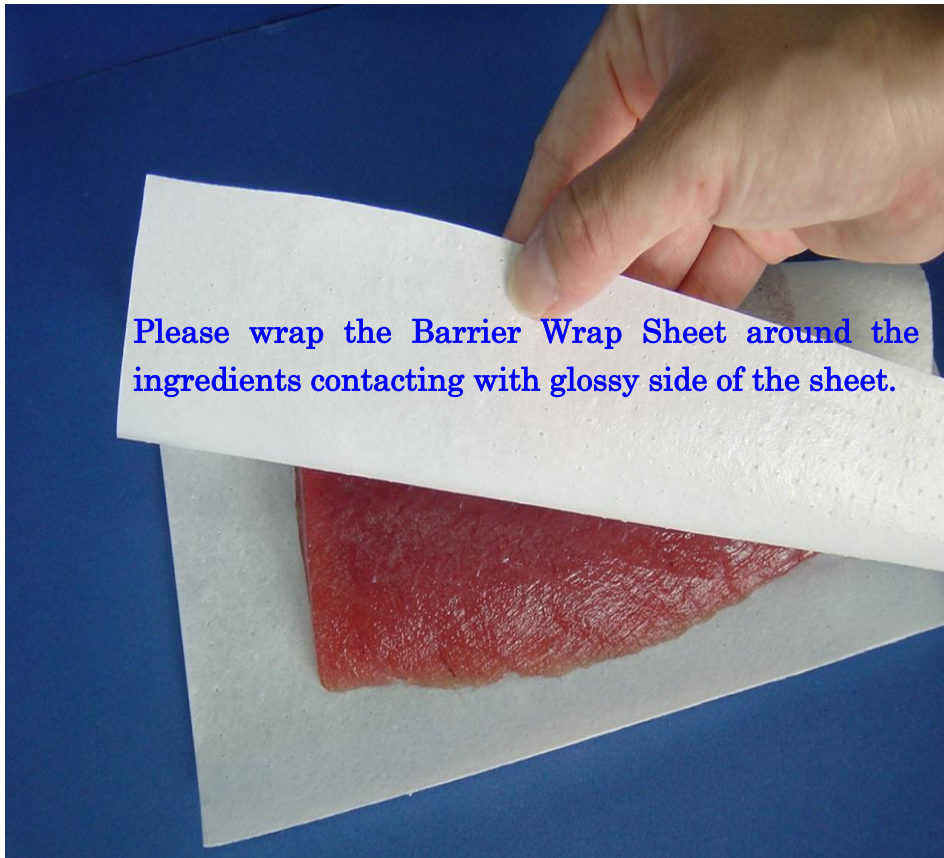

How to use Barrier Wrap Sheet

【How to use】

- ✓ Please wrap the Barrier Wrap Sheet around the surface of the ingredients so that it comes into direct contact with the glossy surface of the barrier wrap.
- ✓ If you need to freeze the ingredients, wrap it in the Barrier Wrap Sheet and put it in a freezing bag.

【Cautions】

- ✓ Do not put ingredients wrapped in the Barrier Wrap Sheet in the fire or in the oven.
- ✓ For hygiene reasons, please avoid repeated use for long periods of time.

【Effects of Barrier Wrap Sheet】

- ✓ By the bacteriostatic action of marine minerals on the surface of the Barrier Wrap Sheet, it keeps freshness and protects it from discoloration and slimy.
- ✓ The non-woven fabric side of the Barrier Wrap Sheet absorbs excess drips and moisture from the processed holes of the laminated polyethylene film. This composition keeps the surface of the ingredients moderately moist.

In addition to the sheet type, there is also a roll type.

Please experience the excellent effects of the Barrier Wrap Sheet.
